# INSTRUCTIONS

*Ignite Imaginations advise that this activity should be carried out under the supervision of an adult*

**1** First we will tie the chimes onto the hot air balloon. Do this by taking the four silver threads and the four chimes. Thread each silver thread through a chime and then through a hole in the bottom of the hot air balloon. Then for each individual thread, tie the ends into a knot.

**2** Now thread the piece of wool through the hole in the top of the hot air balloon and tie the ends together.

**3** Time to do some designing. Take your piece of paper and pencil and draw some designs that you would like to put onto your hot air balloon. Maybe your name in bubble writing? What else can you think of?

**4** Once done take your pencil designs and transfer the designs onto the hot air balloon.

**5** Now take the hot air balloon and glue it onto your hot air balloon.

**6** Allow to dry.

**Once dry, hang up outside and listen to the wind chimes and look at the beautiful colours created by the sun shining on your work. Well done and enjoy!**
