

# Hope Negative Space Collage

HAVE A GO WITH  
ARTIST HELEN MOYES

*Ignite Imaginations advise that this activity should be carried out under the supervision of an adult*

## STEP ONE:

Decide on the size of the letters H O P E and lightly draw them onto the centre of your piece of card. Make sure you leave spaces between your letters. It can help to cut a strip of card (eg 1cm wide) to act as a guide for the parts of your letters. For round parts, you may want to draw around something eg. a jar lid.

## STEP TWO:

Ask an adult to help you cut small shapes from your colourful paper and use your hole punch to make small circles.

## STEP THREE:

Apply glue to the area around one of your letters and arrange your shapes to fit. You may need to cut some paper to fit exactly, for example in the centre of your letters.

## STEP FOUR:

Repeat until you have filled the space around your letters. While you are working on your collage, you may like to think about what you are hopeful about and let the bright colours bring you cheer.

## STEP FIVE:

Stand back and check it is easy to read your word. Add any extra little shapes to your collage if you need.

## STEP SIX:

Rub out any visible pencil marks with your eraser.

**Well done - enjoy your creation.**
